

PropVest

Fractional Real Estate Investment

Own a piece of Nigeria's best properties — starting from N50,000

Partnership & Investment Proposal | April 2026

CONFIDENTIAL

Real estate is Nigeria's best investment. But 95% of Nigerians can't afford it.

16+ yrs

to save for a single plot

A Plot in Abuja = N20M+

Average Nigerian earns N100K/month.
It takes 16+ years of pure savings
just to buy one plot of land.

N500B+

lost to property scams

Trust Issues Everywhere

Scam developers, fake C of O,
vanishing agents. People lose
millions to real estate fraud yearly.

0%

liquidity in traditional RE

No Liquidity

Once you buy land or property,
your money is locked. You can't
sell a bedroom if you need cash.

25%+

bank interest rates

Developers Need Capital

Even established developers struggle
with capital. Bank loans at 25%+
interest eat into margins.

"Everyone knows real estate is the best investment. But nobody can get in."

PropVest makes it simple.

We split properties into small, affordable units.

Anyone can invest from N50,000. Earn rent. Watch your investment grow. Sell anytime.

1

Developer Lists Property

You list your verified property on your own branded page. Your name, your logo, your trust.

2

Property Gets Split

A N90M house becomes 900 units at N100,000 each. Developer keeps unsold units as their own stake.

3

Your Followers Invest

Your followers click the link, verify their identity, and buy units. 97% goes straight to your bank account.

4

Everyone Earns

Rent gets split by ownership %. Property value grows over time. Sell units anytime on marketplace.

No crypto. No blockchain. Just Naira, bank transfers, and verified properties.

We keep it simple — pay with your bank account, receive payouts directly to your account.

Three products. Three ways to earn.

RENTAL

Rent-Earning Properties

Invest in completed properties.
Earn quarterly rent + appreciation.

EXAMPLE

DM Duplex — Gwarinpa

Value: **N90M = 900 units**
Unit Price: **N100,000**
Rent Yield: **8-12% per year**
Payout: **Every quarter**

How you earn:

- Quarterly rent to your bank
- Property appreciation over time
- Sell units on marketplace anytime

BUILD & SELL

Development Projects

Fund construction of new properties.
Earn profit share when they sell.

EXAMPLE

SG Estate — 10 Units, Kuje

Build Cost: **N250M = 2,500 units**
Unit Price: **N100,000**
Sale Price: **N350M (est.)**
Profit: **40% in 12-18 months**

How you earn:

- Profit share when property sells
- Milestone updates during construction
- Sell units on marketplace before sale

LAND

Land Blocks

Buy sqm of land in developing areas.
Earn as plots sell + convert to plot.

EXAMPLE

DM Gardens Phase 3

Size: **2.5 hectares (25,000 sqm)**
Per sqm: **N7,000**
Min: **50 sqm = N350,000**
Return: **30-60% on full sell-out**

How you earn:

- Milestone payouts as plots sell
- Land appreciation over time
- Convert 500sqm to physical plot

How investors actually make money

RENTAL

Aisha invests N500,000 in a Duplex

Investment: 5 units x N100,000 = N500,000

Year 1: N50,000 rent | Units worth N500,000

Year 2: N105,000 cumulative rent | Worth N550,000

Year 3: N165,000 cumulative rent | Worth N605,000

Year 5: N305,000 cumulative rent | Worth N730,000

She earns from:

- Quarterly rent to her bank
- Property appreciation
- Sell units anytime

N1,035,000

+107% in 5 years (rent + growth)

BUILD & SELL

Musa invests N500,000 in a new estate

Investment: 5 units x N100,000 = N500,000

Build cost: N250M | His stake: 0.2%

Developer builds the estate in 12-18 months

Estate sells for N350M | Profit: N100M

Musa's share of profit: N200,000 (40% return)

He earns from:

- Profit share when property sells
- Sell units on marketplace before sale
- No rent — this is pure capital gain

N700,000

+40% in 12-18 months (profit share)

From the developer's side:

Rental Property

List N90M duplex
900 followers fund it
You keep unsold units
You manage tenant, collect rent
Platform distributes to investors

Build & Sell

Need N250M to build estate
2,500 followers fund construction
No bank loan. No interest.
You build and sell the properties
Profit is shared with investors

Land Development

List 2.5 hectares for sale
Followers buy sqm from N350K
You sell plots as market grows
Investors get milestone payouts
500sqm holders get physical plots

Why partner with PropVest?

The developer's problem:

You have 100K+ followers who trust you — but 99% can't afford your properties. Until now.

Bank loans at 25%+ interest | Only 5 buyers can afford N90M | 100K followers are just likers, not investors

100K+

followers already

Unlock Your Audience

Your 100K+ followers already trust you.
Now they can invest from N100,000.
Your audience becomes your investors.

N90M

needed to build

Faster Capital

Instead of chasing 5 rich buyers for months, 900 followers fund your property in weeks. No bank. No interest.

60%

units keep your stake

You Keep Your Stake

Unsold units are yours. You earn proportional rent just like any investor.
Sell more units whenever you want.

NO

difficult stuff to you

We Handle the Boring Stuff

We are your back office — technology, KYC, payments, payouts, legal.
You focus on building properties.

How the money flows:

1. Investor pays N100,000/unit
- 2. Platform takes 2-3% fee (N2-3K)
- 3. N97,000 goes to developer's bank
- 4. Paystack splits automatically

How PropVest makes money

2-3%

On every investment

Platform Fee

Investor buys N100K of units,
we take N2-3K as platform fee.
This is our primary revenue.

10-15%

Of collected rent

Management Fee

We manage rent collection and
distribution. We keep 10-15%
of all rent processed.

1-2%

On secondary sales

Exit / Trading Fee

When investors sell units on
the marketplace, we take a
small transaction fee.

N500K-2M

Per property listed

Developer Listing Fee

Developers pay a one-time fee
to list their property. Covers
due diligence and onboarding.

Revenue Projection (Conservative)

	Year 1	Year 2	Year 3

Nigeria's real estate market is massive

N59 Trillion

Nigerian real estate
market value

28 Million

Housing deficit
(unmet demand)

200M+

Population with
growing middle class

70%+

Under 35 — digital-first
generation

Why now?

Fintech adoption is exploding

Paystack, Flutterwave, OPay proved Nigerians trust mobile money. PropVest rides that wave.

Young Nigerians want to invest

PiggyVest has 4M+ users. Bamboo, Risevest growing fast. People are hungry for investment products.

Developers need alternative funding

Bank interest at 25%+. Off-plan sales are slow. PropVest gives developers instant access to retail

No competitor in this exact space

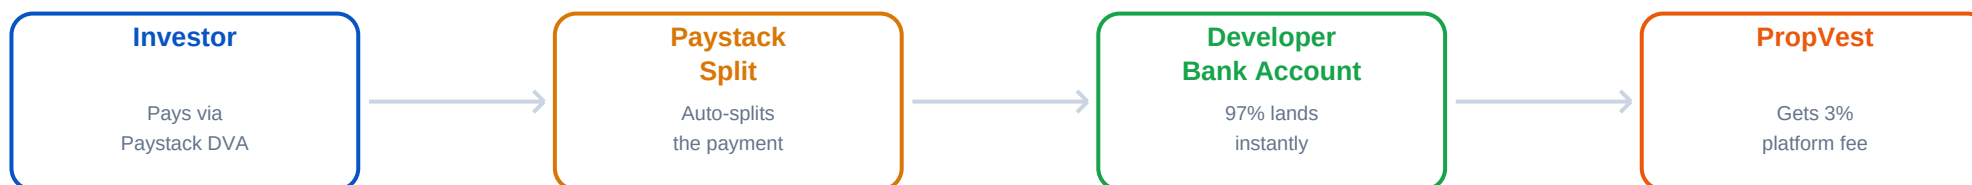

No Nigerian platform does Naira-based fractional real estate with verified developer partnerships.

How it actually works — the structure

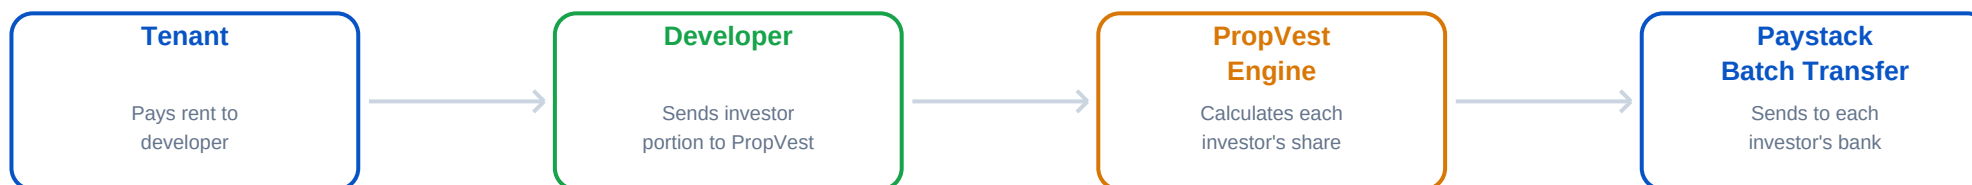

How Your Money is Protected

Paystack Split Payments: when you invest, 97% goes directly to the developer's own bank account.
 PropVest never holds the developer's money. Only 3% platform fee comes to us. Automatic. Transparent.
 Every investment is backed by a legal agreement. Developer signs a partnership contract with payout obligations.

Money Flow:

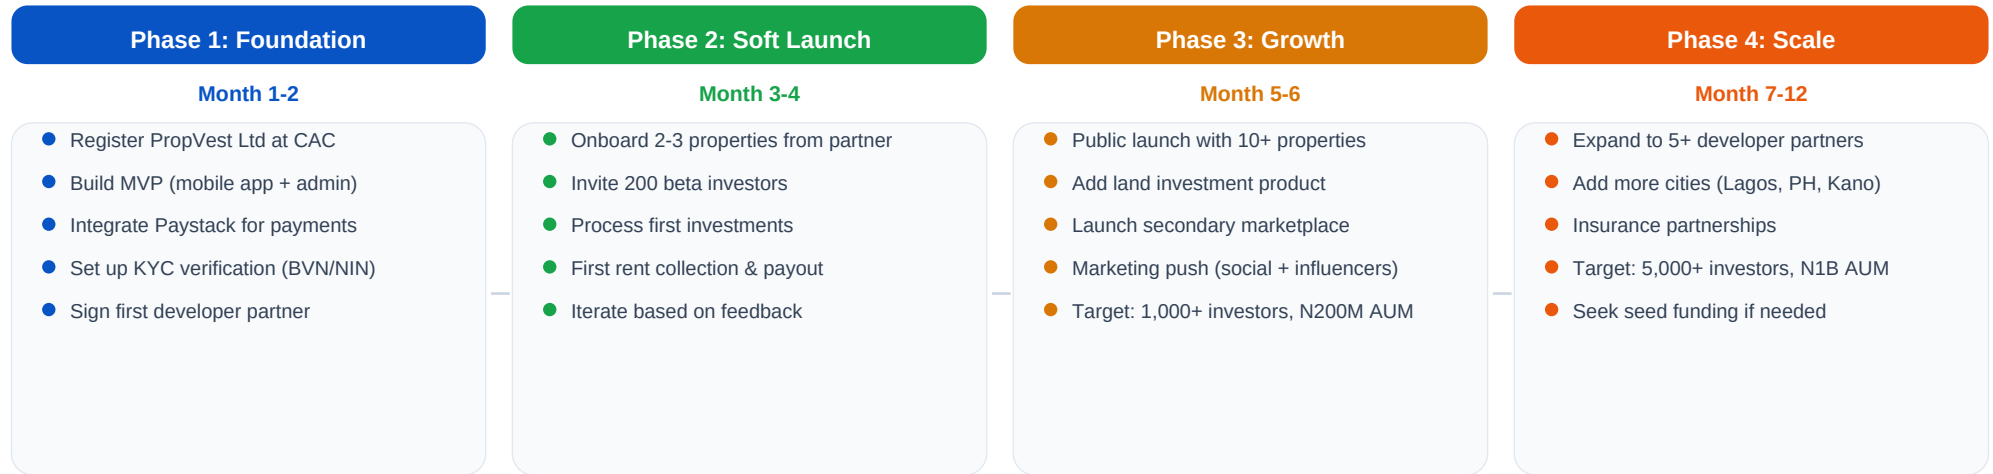

Payout Flow (Rent):

Security & Trust:

- BVN/NIN verification for all investors (KYC)
- Paystack auto-splits — money goes directly to developer's bank
- Developer background checks and track record verification
- Every property has C of O / Governor's Consent verified
- Quarterly audited financial reports per property
- All transactions logged and visible on investor dashboard

From idea to launch in 6 months

We're looking for our first developer partner.

Your properties + our platform = thousands of new investors for your projects.

The partnership proposal

What PropVest Brings

- The technology platform (mobile + web)
- KYC verification for all investors
- Payment processing (Paystack integration)
- Legal contracts and investor agreements
- Quarterly payout automation
- Secondary marketplace for unit trading
- Investor dashboard and reporting
- Customer support for all investors
- Financial reporting and compliance

What You Bring

- Verified, quality properties
- C of O / Governor's Consent docs
- Your trusted brand and reputation
- Your Instagram audience and trust
- Property management (tenants, maintenance)
- Rent collection from tenants
- New project pipeline
- You post the link — your followers invest

Revenue Split

Platform Fee (2-3%)

100% to PropVest

Covers tech, KYC, support

Management Fee (10-15% of rent)

50/50 split

Both share property management revenue

Developer Listing Fee

Waived for 1st partner

Incentive for early partnership

Your followers already want to invest in your properties.

Your audience. Your trust. We just built the system.
